

# Waste in brief

Eindhoven

# Towards a waste-free society together!

## Separating waste is the first step.

### VFG

Vegetable, fruit, and garden waste, such as: fruit/potato peel, branches, and leaves.

**House** > green wheelie bin  
Emptied on collection day.  
**Apartment** > VFG is allowed with the residue waste. Use the Cure environmental pass to open the container.

### Residue waste

Anything not collected separately, such as vacuum bags, cigarettes, nappies.

**House** > grey wheelie bin  
Emptied on collection day.  
**Apartment** > underground waste container near you. Use the Cure environmental pass to open the container.

### Paper

Leaflets, newspapers, letters, envelopes, cardboard boxes, and packaging.

**Place on the street in boxes or tie together with string**  
No collection? Use the paper container nearby.

### Glass

Glass packaging such as wine/beer bottles, vegetable jars and sauces.

**(Underground) glass container near supermarket**  
Separate for the colours green, brown, white.

### PMD

Plastic packaging, drink cans and packs (e.g. empty containers, pouches, cans, milk cartons).

**(Underground) PMD/plastic container near supermarket**  
The packaging must be empty. Please note: no other plastic, such as toys and buckets!

### Textiles

Clothing (worn and wearable), bedding, shoes, accessories, and soft toys.

**Textile container near supermarket**  
Make sure the bag is not too big and fits well into the flap. Place it in a closed bag.

Separating waste saves new raw materials, energy, and money! That's why it's mandatory in Eindhoven.

# Waste collection

## House to house collection

Are you using a grey or green container? Put out your container:

- with closed lid
- with flap opening to the street
- up to 50 cm from the kerb
- minimum 30 cm of space around

## Underground Containers

**Full or defective? Always report this to Cure.**

Report container code to the Cure customer service\* or in the Buitenbeter app\*.

**Don't put waste next to the (underground) container! This is prohibited and causes nuisance.**

We will charge you for cleaning up your added waste.

Download  
de Cure  
Afval App

[cure-afvaltoehoor.nl](http://cure-afvaltoehoor.nl)

**Want to know when your waste is collected?**

Consult the digital waste calendar at [www.mijnafvalwijzer.nl](http://www.mijnafvalwijzer.nl)\* or the **Cure Waste App**\*! Enter your postcode and house number, and you will see when the next collection is due.

Together we keep Eindhoven clean!

\* Only available in NL and ENG

# Recycling Centre

Take your waste which is too much or too large for the container (e.g. furniture, broken items and appliances, wood, debris, small chemical waste, etc.) to the recycling centre. You can deposit up to 2 m<sup>3</sup> of waste per visit. Take your Cure environmental pass with you!

Special rules apply to the packing and depositing of asbestos. For that reason, asbestos should always be reported by phone to Cure Customer Service. This should be at least 24 hours in advance.

*Cure Customer Service is open Monday to Friday from 8.30am to 5pm.*

There are two recycling centres in Eindhoven:

## Milieustraat Acht

Achtseweg Noord 41  
(GDC-Noord),  
5651 GG Eindhoven

## Milieustraat Lodewijkstraat

Lodewijkstraat 9,  
5652 AC Eindhoven

### Opening times

*From January 1, 2022*  
Monday to Friday: 10am - 5pm  
Saturday: 9am - 5pm  
Closed Sunday

Take your Cure environmental pass with you!

No transport to the recycling centre? Use the Cure pick-up service! Buy big-waste stickers or big bags from Cure customer service.
